

Title: To investigate the action of amylase on starch; identify the substrate, product and enzyme (OB8)

Student Name: _____

Other students in Group: _____

Preparation and planning

List of tasks to carry out _____

Apparatus/chemicals needed _____

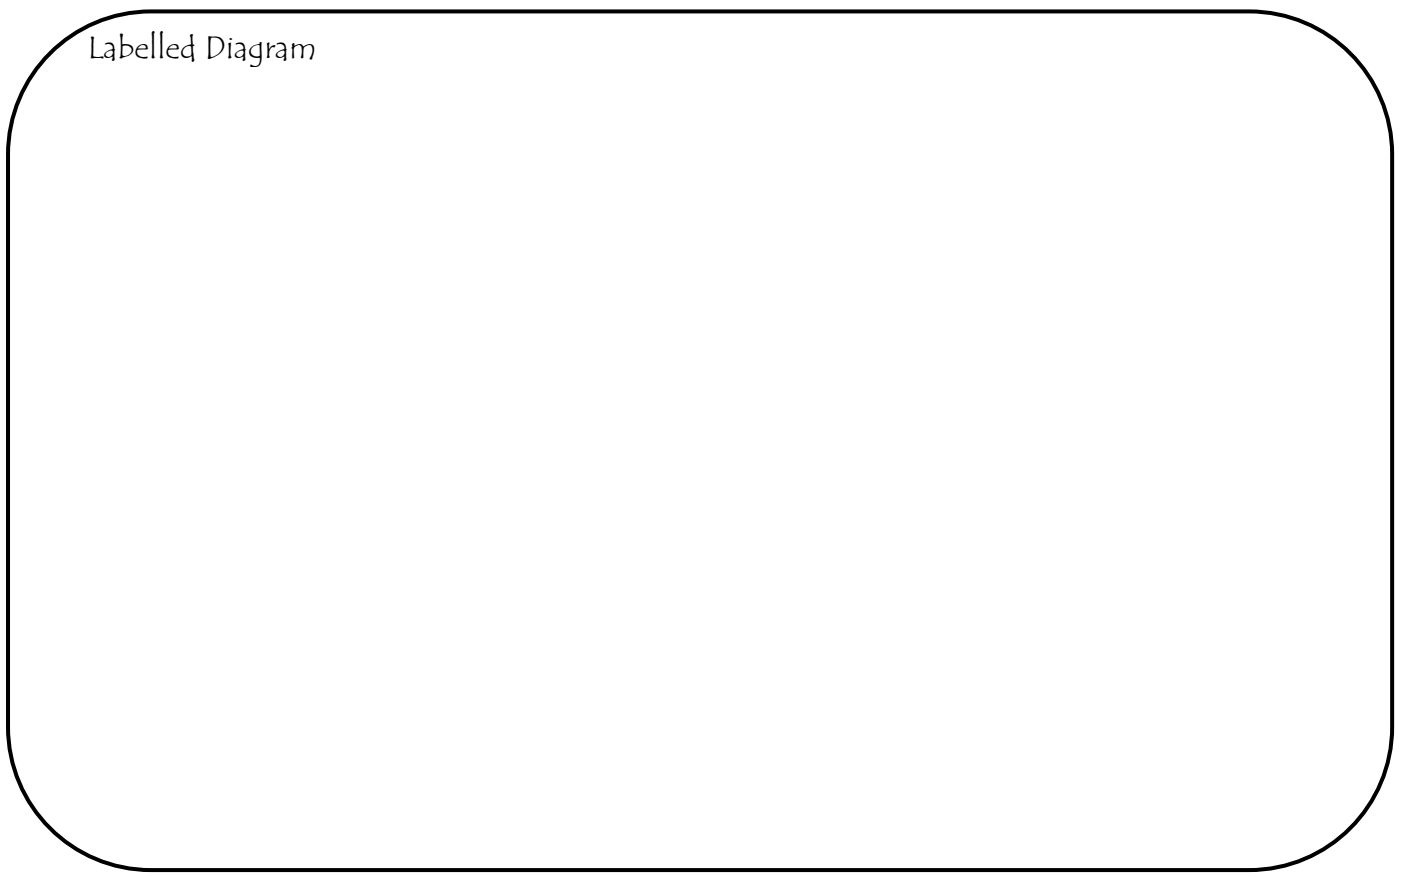

What will vary in this experiment? _____

What is expected to change with this variable? _____

What will remain constant in the experiment (what is controlled)? _____

Procedure

Labelled Diagram

Outline of method _____

Safety Precautions taken _____

Comments/Observations _____

Results and Conclusion

Enzyme	
Substrate	
Product	

General comments _____

Teacher Name: _____ Date of completion: _____
Student signature: _____
